# AUTHOR INDEX

Beaton, J. D., influence of base saturation and fertility treatments on yield and cation content of crops on British Columbia soils high in organic matter, 49–56.
Boyd, D. A., *see* Church, B. M.
Brockington, N. R., fertilizer trials on cultivated grasses in Northern Rhodesia, 345–54.
Brown, K. J., *see* Peat, J. E.
Brown, L. H., land consolidation and better farming in Kenya, 277–85.
Butterworth, M. H., digestibility of sugarcane tops, rice aftermath and bamboo grass, 77–81.

Campbell, J. S., physiological investigations of White Lisbon Yam (*Dioscorea alata* L.). I. Breakage of rest period by chemicals, 108–15; II. Growth period and out-of-season production, 232–8; III. Effect of chemicals on storage, 335–44.
Carpenter, A. J., techniques in rice-breeding programmes, 127–32.
Chandraratna, M. F., fertilizer responses of rice in Ceylon, 16–26.
Chukwueke, V. O., *see* Campbell, J. S.
Church, B. M., fertilizer practice, England and Wales, cereal manuring, 1–15.
Clarke, R. T., effect of resting on a tropical soil, 57–62.
Clinton, P. K. S., causes of loss of yield in groundnuts in Sudan, 137–44; control of soil-borne pests and diseases of groundnuts in Sudan, 145–54.
Craufurd, R. Q., moisture changes in raw and parboiled paddy in West Africa, and influence on milling quality. I. Moisture changes in ripening crop, 315–20; II. Changes during drying, 321–9.
Cresswell, E., energy metabolism studies with Romney Marsh and Cheviot Sheep in New Zealand, 82–93.

Dermott, W., *see* Rose, T. H.
Dutt, A. K., sulphur deficiency in sugar cane, 257–62.
Dutta Roy, D. K., *see* Jackson, J. E.

Evans, Gwilym, seed rates of grasses for seed production. II. Bred varieties of Tall Fescue, Meadow Fescue, Cocksfoot (hay type), and Phalaris hybrid, 181–91.

Faulkner, R. C., *see* Jackson, J. E.
Fernando, L. H., *see* Chandraratna, M. F.

Garner, H. V., experiments with farmyard manure, sewage sludges, and town refuses on microplots at schools, 295–304.
Gough, N. A., *see* Beaton, J. D.

Hewitt, C. W., leaf analysis of Lacatan bananas as guide to nutrition of the plant, 249–56.
Hills, Mary G., *see* Church, B. M.
Ho-A-Shu, H. V. S., *see* Campbell, J. S.
Houghton, T. R., *see* Wilson, P. N.

Jackson, J. E., quality of Gezira cottons. I. Relation between quality and earliness, 192–206; II. Effect of site, nitrogen, spacing on seed-cotton grade, 207–14.

Khalifa, A., susceptibility of sorghum varieties to Trogoderma attack, 132–6.

McEwen, J., raising cereal yields in northern Ghana, 330–4.
Meiklejohn, Jane, microbiology of nitrogen cycle in Ghana soils, 115–26.
Moore, A. W., influence of a legume on soil fertility under grazed tropical pasture, 239–48.

Osborne, R. E., *see* Hewitt, C. W.

Peat, J. E., yield responses of rain-grown cotton in Tanganyika. I. Use of organic manure, inorganic fertilizers, cotton-seed ash, 215–31; II. Land resting and other rotational treatments contrasted with use of organic manure and inorganic fertilizers, 305–14.

Reith, J. W. S., long-term effects of liming materials, 27–41.
Roberts, E. H., *see* Carpenter, A. J.
Romney, D. H., fertility of lowland soils of British Honduras, 95–107.
Rose, T. H., micronutrient deficiencies in arable crops in Romney Marsh. II. Manganese deficiency in peas and cereals, 263–75.
Rowles, C. A., *see* Beaton, J. D.
Russell, R. C., production of smut-free barley as a community project, 286–94.

Teriba, F. A., *see* Campbell, J. S.
Tewari, G. P., efficiency of strains of cowpea Rhizobium in nodulation of local cowpea variety in Nigeria, 155–8.

Walton, P. D., effect of ridging on cotton in Uganda, 63–76.
Watson, D. J., cattle-owner settlement in Sierra Leone, 42–48.
Weeraratna, H., *see* Chandraratna, M. F.
Wilson, P. N., development of herd of Holstein-Zebu cattle in Trinidad, 159–80.

# SUBJECT INDEX

Bananas, Lacatan, nutrition, leaf analysis, in Jamaica, 249–56.
Barley seed, smut-free, production as community project, in Canada, 286–94.
British Honduras, *see* soils.

Canada, *see* barley; soils.
Cattle: cattle-owner settlement scheme, in Sierra Leone, 42–48; Holstein-Zebu herd, development at Imperial College of Tropical Agriculture, Trinidad, 159–80.
Ceylon, *see* rice.
Cotton: Sudan Gezira cottons, quality: relation to crop earliness, 192–206; effect of site, nitrogen, spacing on grade of seed cotton, 207–14; rain-grown, in Tanganyika, yield responses: use of organic measures, fertilizers, cotton-seed ash, 215–31; effects compared with land resting and rotational treatments, 305–14; *see also* soils.
Cowpeas, nodulation, efficiency of strains of cowpea Rhizobium, in Nigeria, 155–8.

Diseases and pests of plants, *see* barley; groundnuts; sorghum.

Fertilizer practice, in England and Wales, manuring of cereals, 1–15.
Fodder crops: digestibility of sugar-cane tops, rice aftermath, bamboo grass, in Trinidad, 77–81; *see also* grasses; sheep.

Ghana, *see* soils.
Grasses: for seed production, seed rates, for bred varieties of Tall Fescue, Meadow Fescue, Cocksfoot (hay type), Phalaris hybrid, 181–91; cultivated, fertilizer trials, in Northern Rhodesia, 345–54.
Groundnuts, in Sudan: causes of loss in yield, 137–44; soil-borne pests and diseases, control, 145–54.

India, *see* sugar-cane.

Jamaica, *see* bananas.

Kenya, *see* land consolidation; soils.

Land consolidation, Kenya, in relation to better farming, 277–85.
Land management, *see* cotton; land consolidation; soils.
Liming materials; long-term effects, in Scotland, 27–41.

Manures: farmyard manure, sewage sludge, town refuse, experiments on microplots at schools, 295–304.
Manures and fertilizers, effects of, *see* bananas; cotton; fertilizer practice; grasses; liming materials; manures; rice, soils; sugar-cane.

New Zealand, *see* sheep.
Nigeria, *see* cowpeas; soils.
Northern Rhodesia, *see* grasses.

Rice: fertilizer responses, in Ceylon, 16–26; breeding techniques, Sierra Leone, 127–31; paddy, raw and parboiled, moisture changes, effect on milling quality, in Sierra Leone: in ripening crop, 315–20; during drying, 321–9; *see also* fodder crops.

Sheep: energy metabolism studies, in New Zealand, 82–93.
Sierra Leone, *see* cattle; rice.
Soils: base saturation and fertility treatments, influence on crop yields and composition, in British Columbia, 49–56; resting, effect on productivity, in Kenya, 57–62; ridging effect on cotton crop, in Uganda, 63–76; fertility, lowland soils of British Honduras, 95–107; microbiology, nitrogen cycle, in Ghana, 115–26; fertility, influence of a legume in grazed pasture, in Nigeria, 239–48; micro-nutrient deficiencies, in Romney Marsh, manganese, in peas and cereals, 263–75.
Sorghum, Trogoderma attack, susceptibility of varieties, in Sudan, 132–6.
Sudan, *see* cotton; groundnuts; sorghum.
Sugar-cane: sulphur deficiency, in India, 257–62; *see also* fodder crops.

Tanganyika, *see* cotton.
Trinidad, *see* cattle; fodder crops; yams.

Uganda, *see* soils.
United Kingdom, *see* fertilizer practice; grasses; liming materials; manures; soils.

Yams, White Lisbon, physiological investigations: rest period, breakage, by chemicals, 108–15; growth period and out-of-season production, 232–8; storage, effect of chemicals, 335–44.

# The EMPIRE JOURNAL of EXPERIMENTAL AGRICULTURE

VOLUME XXX

OXFORD
AT THE CLARENDON PRESS
1962

# EDITORIAL BOARD

SIR E. J. RUSSELL, Campsfield Wood, Woodstock, Oxfordshire (*Chairman*).

DR. E. E. CHEESMAN, Agricultural Research Council, 15 Regent Street, London, S.W. 1.

SIR J. B. HUTCHINSON, School of Agriculture, Cambridge.

SIR G. W. NYE, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W. 1.

DR. G. WATTS PADWICK, Plant Protection Ltd., Fernhurst, near Haslemere, Surrey.

D. RHIND, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W. 1.

SIR J. A. SCOTT WATSON, 4 Sheldon Avenue, London, N. 6.

(*The above constitute the Executive Committee*)

M. A. A. ANSARI, Pakistan Central Cotton Committee, New Queens Road, Karachi, 1.

PROF. R. G. BASKETT, National Institute for Research in Dairying, Shinfield, nr. Reading.

PROF. G. E. BLACKMAN, Dept. of Agriculture, Oxford.

S. DE BLANK, Plantations Group, Unilever Ltd., London, E.C.4.

PROF. M. F. CHANDRARATNA, Faculty of Agriculture, University of Ceylon, Peradeniya.

SIR G. F. CLAY, Malayan Rubber Fund, P.O. Box 2073, Kuala Lumpur, Malaya.

DR. D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen.

DR. WILLIAM DAVIES, Grassland Research Institute, Hurley, nr. Maidenhead, Berks.

DR. H. P. DONALD, Animal Breeding Research Organization, Edinburgh 9.

DR. W. L. FIELDING, Gwebi Agricultural College, Salisbury, Federation of Rhodesia and Nyasaland.

DR. C. H. GOULDEN, Central Experimental Farm, Ottawa, Canada.

DR. W. M. HAMILTON, Dept. Scientific and Industrial Research, Wellington, C. 1, New Zealand.

SIR J. HAMMOND, School of Agriculture, Cambridge.

DR. P. S. HUDSON, Commonwealth Bureau of Plant Breeding and Genetics, Cambridge.

G. V. JACKS, Commonwealth Bureau of Soils, Harpenden, Herts.

J. LAMB, West African Cocoa Research Institute, P.O. Box 8, Tafo, Ghana.

DR. A. H. LEWIS, Jealott's Hill Research Station, Bracknell, Berks.

DR. J. MELVILLE, Waite Agricultural Research Institute, Glen Osmond, S. Australia.

DR. B. P. PAL, Indian Agricultural Research Institute, New Delhi.

DR. S. J. DU PLESSIS, Department of Agricultural Technical Services, Private Bag 116, Pretoria, Union of South Africa.

DR. E. W. RUSSELL, East African Agricultural and Forestry Research Organization, P.O. Box 21, Kikuyu, Kenya.

PROF. P. T. T. THOMAS, Welsh Plant Breeding Station, Aberystwyth.

DR. F. R. TUBBS, Horticultural Research Station, East Malling, Kent.

PROF. STEPHEN WATSON, Dept. of Agriculture, Edinburgh University.

DR. F. YATES, Rothamsted Experimental Station, Harpenden, Herts.

*Secretary and General Editor*

H. J. PAGE, Brackens, Church Lane, West Lavington, Midhurst, Sussex.

# CONTENTS

## *Number 117*

B. M. CHURCH, D. A. BOYD, and MARY G. HILLS: Fertilizer Practice in England and Wales. II. Manuring of Cereals . 1

M. F. CHANDRARATNA, L. H. FERNANDO, and H. WEERARATNA: Fertilizer Responses of Rice in Ceylon. I . . . . 16

J. W. S. REITH: Long-term Effects of Various Liming Materials 27

D. J. WATSON: The Cattle-owner Settlement Scheme in Sierra Leone . . . . . 42

J. D. BEATON, N. A. GOUGH, and C. A. ROWLES: The Influence of Base Saturation and Fertility Treatments on Yield and Cation Composition of Crops Grown on two British Columbia Soils High in Organic Matter. II . . . . . 49

R. T. CLARKE: The Effect of Some Resting Treatments on a Tropical Soil . . . . . 57

P. D. WALTON: The Effects of Ridging on the Cotton Crop in the Eastern Province of Uganda . . . . . 63

M. H. BUTTERWORTH: The Digestibility of Sugar-cane Tops, Rice Aftermath, and Bamboo Grass . . . . . 77

E. CRESSWELL: Energy Metabolism Studies with Romney Marsh and Cheviot Sheep in New Zealand. With Plates 1–4 82

## *Number 118*

D. H. ROMNEY: The Fertility of the Lowlands Soils of British Honduras . . . . . 95

J. S. CAMPBELL, V. O. CHUKWUEKE, F. A. TERIBA, and H. V. S. HO-A-SHU: Some Physiological Investigations into the White Lisbon Yam (*Dioscorea alata* L.) I. The Breakage of the Rest Period in Tubers by Chemical Means . . . . 108

JANE MEIKLEJOHN: Microbiology of the Nitrogen Cycle in Some Ghana Soils . . . . . 115

A. J. CARPENTER and E. H. ROBERTS: Some Useful Techniques in Speeding up Rice-Breeding Programmes . . . . 127

A. KHALIFA: The Relative Susceptibility of some Varieties of Sorghum to Trogoderma attack . . . . . 132

P. K. S. CLINTON: Causes of Loss of Yield in Groundnuts in the Sudan Central Rainlands . . . . . 137

P. K. S. CLINTON: The Control of Soil-Borne Pests and Diseases of Groundnuts in the Sudan Central Rainlands . 145

G. P. TEWARI: Note on a Preliminary Investigation of the Efficiency of two Introduced Strains of Cowpea Rhizobi in the Nodulation of a Local Cowpea Variety at Ibadan, Western Nigeria . . . . . 155

P. N. WILSON and T. R. HOUGHTON: The Development of the Herd of Holstein-Zebu Cattle at the Imperial College of Tropical Agriculture, Trinidad . . . . . 159

## *Number 119*

GWILYM EVANS: Seed Rates of Grasses for Seed Production. II. Breed Varieties of Tall Fescue, Meadow Fescue, Cocksfoot (Hay Type), and Phalaris Hybrid . . . . . 181

J. E. JACKSON, R. C. FAULKNER: Studies in the Quality of Gezira Cotton. I. The Relationship Between Quality and Crop Earliness . . . . . 192

J. E. JACKSON, R. C. FAULKNER, and D. K. DUTTA ROY: Studies in the Quality of Gezira Cottons. II. The Effect of Site, Nitrogen, and Spacing on Seed-Cotton Grade . . . 207

J. E. PEAT and K. J. BROWN: The Yield Responses of Rain-Grown Cotton at Ukiriguru in the Lake Province of Tanganyika. I. The Use of Organic Manure, Inorganic Fertilizers, and Cotton-Seed Ash . . . . . 215

J. S. CAMPBELL, V. O. CHUKWUEKE, F. A. TERIBA, and H. V. S. HO-A-SHU: Some Physiological Investigations into the White Lisbon Yam (*Dioscorea alata* L.). II. Growth Period and Out of Season Production . . . . . 232

A. W. MOORE: The Influence of a Legume on Soil Fertility Under a Grazed Tropical Pasture . . . . . 239

C. W. HEWITT and R. E. OSBOURNE: Further Field Studies on Leaf Analysis of Lacatan Bananas as a Guide to the Nutrition of the Plant . . . . . 249

A. K. DUTT: Sulphur Deficiency in Sugar-Cane . . . . 257

T. H. ROSE and W. DERMOTT: Micro-Nutrient Deficiencies in Arable Crops in Romney Marsh. II. Manganese Deficiency in Peas and Cereals . . . . . 263

## *Number 120*

L. H. BROWN: Land Consolidation and Better Farming in Kenya . . . . . 277

R. C. RUSSELL: The Production of Smut-Free Barley Seed as a Community Project . . . . . 286

H. V. GARNER: Experiments with Farmyard Manure, Sewage Sludges, and Town Refuses on Microplots at Schools, 1940–9 . . . . . 295

J. E. PEAT and K. J. BROWN: The Yield Responses of Rain-Grown Cotton at Ukiriguru in the Lake Province of Tanganyika. II. Land-Resting and other Rotational Treatments Contrasted with the use of Organic Manure and Inorganic Fertilizers . . . . . 305

R. Q. CRAUFURD: Moisture Changes in Raw and Parboiled Paddy in West Africa and their influence upon Milling Quality. I. Moisture Changes in the Ripening Crop . . 315

R. Q. CRAUFURD: Moisture Changes in Raw and Parboiled Paddy in West Africa and their Influence upon Milling Quality. II. Changes During Drying . . . . 321

J. MCEWEN: Raising Cereal Yields in Northern Ghana . 330

J. S. CAMPBELL, V. O. CHUKWUEKE, F. A. TERIBA, and H. V. S. HO-A-SHU: Some Physiological Experiments with the White Lisbon Yam (*Dioscorea alata* L.) in Trinidad. III. The Effect of Chemicals on Storage . . . . . 335

N. R. BROCKINGTON: Fertilizer Trials on some Cultivated Grasses in Northern Rhodesia . . . . . 345
